Panel Program at KLA/KSMA Fall Conference October 2, 2009

Title: Experiencing IT K-100: Ensuring Continuity for Lifelong Research Needs

Description: Kentucky students are woefully unprepared for college level research. How do we ensure that they get IT and get the support they need from Kindergarten through the rest of their lives? We will have a panel discussion with representatives from school, academic and public libraries.

Guest speakers: Terri Kirk, library media specialist, Reidland High School
Linda Bartnik, Education and Business Librarian, Murray State University Libraries

Audience: Approx. 4 (not including guest speakers and moderator).

Report: The program became a roundtable discussion, where the two guest speakers summarized their presentations, and we discussed the current situation and possible solutions.

Respectfully submitted,

Johan Koren, Murray State University
